

CARER IDENTIFICATION FORM

This sheet is to be completed by the carer and handed back to a member of staff

You have been given this Carer Identification Form because you may be a carer.

Definition of a carer: a carer is a person of any age who provides care for someone with a long-term illness, mental ill health, addiction, disability or frailty, who would not be able to care for themselves without support. A carer may live with, or apart from, the person they care for.

Please tell your GP Practice you are a carer. Your practice will then:

- give you information about support available to carers;
- know about your caring responsibilities if you are unwell yourself;
- know about the risks to your health from caring, and offer you a flu vaccination and/or other support;
- offer you more convenient appointments, so that you can manage your caring responsibilities while still looking after yourself.
